6. DESCRIPTION OF SYSTEM PROPOSED OR INSTALLED

(FOR EXAMPLE: SIZE OF PUMP, CAPACITY OF PUMP, PUMP MOTOR HORSE POWER, PIPE DIAMETER, NUMBER OF SPRINKLERS, ETC.)

The 117 acres of Kyle Mathison will be pumped into a 100+ acre feet resevoir during times of low water damand when the irrigation district would have normally shut off its pumps.

The other 400 G.P.M. would need additional pumps as needed when demand dictates.

1st Stage: 30 h.p. pump at the river; with 2,000 feet of 22" pipe, 124' elevation

2nd Stage: 100 h.p. pump; with 5,050' of 16" pipe, 576' elevation.

3rd Stage: 100 h.p. pump; with 8,050' of 12" pipe, 720" elevation.

The acres of Bryant and Kyle Mathison will be irrigated with microsprinklers at 200 heads/acre at .3 G.P.M./Head. Bob & Tom Mathison acres will be rainbird sprinklers 7/64 nozzel at 2 G.P.M./Head and 40 heads/Acre.

REMARKS

In order to implement the provisions of Initiative Measure Number 59, the Family Farm Water Act which was passed by the voters on November 3, 1977, we must ask the following question:

Does the total number of acres in which you have controlling interest in the State of Washington exceed 2000 acres for the following three categories:

1. Lands that are being irrigated under water rights acquired after December 8, 1977.
2. Lands that may be irrigated under applications now on file with the Department of Ecology.
3. Lands that may be irrigated under this application.

RESPONSE FORM

I have read the letter from the Department of Ecology returning my water right application and fee and explaining the three options available to me for further disposition of my application. My selection is indicated below:

Check ☒ one option please.

☒ Option 1. Please accept my application for permit and hold it on file until action can be taken to consider issuance of a permanent water right.

☐ Option 2. Please accept my application and proceed to consider issuance of a temporary permit. I understand that if a temporary permit is issued, there is no guarantee 1) that a permanent water right will be issued after its expiration, or 2) that more stringent conditions will not be included if a permanent water right is issued. I further understand that a temporary permit will not be considered for issuance immediately. Existing applications on file which are not subject to the moratorium, and temporary permit requests which were received prior to my request, will be evaluated first.

☐ Option 3. I prefer to withdraw my application from further consideration at this time. I understand that I may reapply at a later date.

If options 1 or 2 are selected, return this form with your signature, the application and application fee to the Department of Ecology.

If option 3 is selected, you may return this form only to the Department of Ecology, but it is not necessary.

If you do not respond within the time allowed in the accompanying letter, Ecology will assume you are no longer interested in pursuing the application and your priority date will be forfeited.
